

Eloi Cotonat Donat

QA Tester · Test Automation · Cypress · Playwright · CI/CD

hola@eloicotonat.com · Barcelona · eloicotonat.com · linkedin.com/in/eloicotonat

PROFESSIONAL PROFILE

QA Tester with 3 years in manual testing and E2E automation, and almost 6 in technical roles across support, systems and web development. Specialised in Cypress and Playwright (JavaScript/TypeScript), with the suites integrated into the CI pipeline (Bitbucket Pipelines, GitHub Actions) and Docker. Used to teams without an established QA process: building the regression suite, leaving it running in the pipeline and automating the manual chores that eat the team's time. Experience in SaaS, healthcare and research, and on a project with European funding.

PROFESSIONAL EXPERIENCE

QA & Automation Consultant

Apr 2026 – Aug 2026

Accenture · UPRO platform by Red.es, with European funding · Remote

- Automated with Playwright part of the platform's data collection, which until then was done by hand.
- Wrote scripts inside Excel to process the data and move it between files, cutting repetitive work and errors.
- Validated the platform and gave functional support to users, handling and resolving incident tickets.
- Created an internal documentation tool for my own work and my colleagues'.

Tech: Playwright, JavaScript, Excel, Jira.

Own project: Negocio Manual

May 2026 – present

negociomanual.com · Publication on digital business · Barcelona

- Designed and built the site on WordPress, with technical SEO and my own content strategy, plus a training annex on SEO.

Automation QA Tester

May 2024 – Jun 2025

Vall d'Hebron Research Institute (VHIR)

- Automated with Cypress and Playwright an E2E regression suite that checked on every deployment that nothing had broken.
- Designed scenarios and test cases and planned their execution in Jira.
- Integrated the automated suites into the Bitbucket Pipelines CI pipeline, so they ran on every change.
- When the project closed, a month on the UAB languages platform: validation and E2E tests with Playwright.
- Found and reported new bugs, following them through to closure, and wrote the technical documentation of the QA process.

Tech: Cypress, Playwright, Bitbucket Pipelines, Docker, Jira.

Automation & Manual QA Tester

Oct 2022 – Apr 2024

Stockagile · Retail inventory-management SaaS · Barcelona

- Ran manual and automated tests with Cypress on the SaaS platform, in continuous release cycles.
- Designed scenarios and test cases and prepared the regression plans for each version.
- Reported bugs and documented the QA processes alongside the development team, in an agile setup.

Tech: Cypress, Postman, Jira, Docker.

Systems & IT Support Technician

Apr 2018 – Jan 2021

Parc Sanitari Sant Joan de Déu · Barcelona

- On-site and remote support via VNC (Office, SAP, networks, printers) and user administration in Active Directory and Microsoft 365.
